

“Beam Me Up, Scotty!” is a Huge Success!

The Big Valley Class of 2012 put on a spectacular prom! The out-of-this-world theme was carried out throughout the entire set. The bids were black moon slivers with silver printing. On Saturday night, May 21st, guests entered the Big Valley High School Gym/Starship, voted for the prom royalty, received their personalized lighted glasses and stepped up to the transporter room. After a two second ride on the transporter, guests walked through open space and onto the Rings of Saturn.

The DJ, Awesome Austin and his assistant, Dean, broadcast from their own satellite which hovered near the dance floor. When guests descended from the Rings of Saturn dance floor, they socialized in night club style booths decorated with out-of-this-world fiber optics. Stepping past the nebula into the Black Hole, students found photographer T.A. Schmidt ready to immortalize their evening in space. The hand painted photo backdrop put the finishing touch on the set.

The prom court consisted of princesses Hailey Stevenson, Morgan Manning and Jessica Sandberg. Their escorts were Jeremiah St. John, Tyler Armstrong and Clayton Rhodes. At the stroke of midnight, the results were announced. 2010 Prom Queen Megan Rhodes presented Tyler Armstrong with the king’s crown and Morgan Manning with the queen’s crown and bouquet. The class members and many others helped make this a most memorable evening.
